THE LATEST.

The financial situation in New York City is gradually settling down to normal. No failures were reported yesterday. Exceptionally large engagements of gold were made abroad and the prices of stocks opened at a sharp advance over Saturday. The situation throughout the country at large continues favorable, though precautionary measures have been adopted by the clearing-house associations in many of the large cities.

The Supreme Court of the United States has granted the petition of Edward T. Young, Attorney General of Minnesota, for a writ bringing the contempt proceedings against Mr. Young in connection with the enforcement of the railroad rate law of that State to the Supreme Court for review.

Large crowds were addressed at many places in Kentucky by orators on behalf of both the Republican and Democratic parties. Congressman Ollie M. James spoke to 2,000 persons at Owenton, while J. Morgan Chinn and H. V. McChesney addressed a large audience at Springfield.

The Wilson Distilling Company, of Baltimore, through its attorneys, is negotiating with Attorney General Bonaparte for a test case on the great issues of the pure food law which apply to the labeling of whisky. It is said that a satisfactory arrangement will probably be reached this week.

The Governors and Attorneys General of Alabama, Georgia and North Carolina, and possibly Virginia, will meet in Atlanta Friday to discuss the railway passenger rate situation with a view to reconciling the conflicting laws of the States interested.

Relatives of William Gillespie, the aged Montgomery county farmer who bequeathed his fortune, estimated at \$60,000, to St. Joseph's Infirmary, have given notice that they will make a contest.

Twenty-five girls employed by a whisky house at Paducah struck work because, they allege, they were paid but five cents an hour and were docked eight cents for five minutes' tardiness.

A sentence of six months in the penitentiary was imposed yesterday upon Dr. Walter E. Gillette, former vice president of the Mutual Life Insurance Company, who was convicted of perjury.

In his speech at Murray, Judge S. W. Hager vigorously denied the charge made by Mr. Augustus E. Willson that the Tobacco Trust had contributed \$15,000 to the Democratic campaign fund.

Following a custom inaugurated by the late Secretary Alger, the War Department again this year will transport free Christmas boxes for officers and soldiers on foreign stations.

It is probable that Secretary Root will be elected honorary president of the Central American Peace Conference which is to be held in Washington beginning November 19.

Meetings of the unions of the National Farmers' organization have been called for November 9 to arrange for holding cotton at a minimum of fifteen cents a pound.

Judge Wood at Boise yesterday set the Pettibone case for trial November 21. He said if the case was further delayed he would continue it to the January term.

The hearing of the North Carolina State case was resumed yesterday before Standing Master Judge Montgomery at the Southern railway offices in Washington.

The Bankers' Trust Company of Kansas City, closed its doors yesterday. It was not a strong institution and the general situation was not affected by its failure.

Gen. Maximofsky, director of the department of prisons of the Russian Ministry of the Interior, was shot and killed yesterday at St. Petersburg.

President Roosevelt will issue the proclamation admitting the new State of Oklahoma to the Union on Saturday, November 16.

Senator A. J. Beveridge delivered an address in Indianapolis last night in the interest of the "People's Lobby" movement.

Gen. William Booth, of the Salvation Army, was entertained at luncheon in the White House yesterday by the President.

The United States Circuit Court of Appeals at Montgomery, A. I., yesterday denied a rehearing to Graebe and Gaynor.

Another factor which facilitates the imports of gold is the large orders for American securities which are placed in London. Exports to-day from London and various points on the continent. Prices were sufficiently favorable a week or two ago to induce a movement in this direction, but it has required this to bring the matter vividly to the attention of European investors, so that in this respect the trouble has had a certain value as a warning. The new market for American securities opened considerably higher in London than on Saturday proved an encouragement to the stock market in New York.

The Country's Gold Stock.

The gold stock of the country is already more than twice what is available in 1893, even according to liberal estimates of the amount in circulation at that time. The value of gold now stands below \$20,000,000. It is now in excess of \$1,000,000,000. The Treasury has free gold, not covered by gold certificates in circulation, to the amount of almost exactly \$250,000,000, or five times its resources, and the public credit in 1890.

At the meeting held this afternoon the Executive Committee of the Merchants' Association of New York, by unanimous vote, adopted the following preamble and resolutions:

TIED TO TREES WHERE THEY
REMAIN ALL NIGHT IN THE
NIPPING AIR.

Rolla, Mo., Oct. 28.—As a result of class rivalry of several weeks standing between sophomores of the State School of Mines and the crowd out of bed last night and half clad, were taken from their rooms and tied to trees on the campus of the school, where they remained until day light, shivering in the nipping atmosphere. After they had been released by other sophomores the entire sophomore class rallied, captured seventy-five freshmen, bound their arms with ropes and chains and marched them around town accompanied by the school band. School Director Young was forced to declare a holiday to-day as the class rooms were vacant.

The trouble arose over the refusal of the freshmen to obey the injunction of the sophomores to wear green caps with yellow buttons.

BIG LINER STRIKES
A BREAKWATER

STEAMER FINLAND BADLY
DAMAGED WHILE ENTERING
PORT OF DODGER.

Dover, Eng., Oct. 28.—The Red Star Line steamer Finland from New York, October 19, for Dover and Antwerp, struck the western end of the southern breakwater to-night while entering this port. She sustained extensive damage to her bows, which will necessitate her remaining here until to-morrow afternoon for repairs. No lives were lost, but a man who was working on the breakwater at the time had his thigh broken. The tremendous force of the impact greatly damaged the stone work of the breakwater.

The Finland is now moored at the Prince Wales pier. Her bows are badly buckled, the plates having bent in progress slow on account of having to stop and shake hands with so many men. He found the room already filled, and after being introduced spoke along the lines of his former speeches.

Denies Willson's Charge.

Regarding the allegations that he had been benefited by money from the Tobacco Trust in a former campaign Judge Hager said:

"The farmers have received more consideration from the present Democratic administration than from any previous administration. A law authorizing the pooling of tobacco crops which enables the farmer to protect himself from the ravages of the trusts which are the creatures of Republican legislation was enacted during the present administration. While Democrats were trying to aid the farmers in receiving just remuneration for their toil, Mr. Willson, the Republican nominee for Governor, true to Republican instincts, was, through his advice and counsel as the hired attorney of the Tobacco Trust, helping to multiply the difficulties to be overcome by the honest tiller of the soil, the bone and sinew of the earth.

the tobacco regions of the State developing so overwhelmingly against him because of the admission of his employment as attorney for the Tobacco Trust, Mr. Willson seeks to stay the tide of this opposition which is about to sweep him down to inglorious and crushing defeat by repeating Bradley's insinuation that I had been the beneficiary of a campaign contribution from the Tobacco Trust. That insinuation is absurd as it is false and Mr. Willson cannot escape the justified wrath of the tobacco growers by making such reckless and daring charges and insinuations as that and others in which he is daily indulging.

Big Majority Claimed.

When Judge Hager was introduced to the crowd it was asserted by E. P. Phillips who introduced him, that Calloway county would give the Democratic ticket 2,000 majority. These figures are said to be a trifle high, but the county, which is almost unanimously Democratic, will pile up a large majority and the leaders said all Democrats will be found at the polls when the voting is done. Farmers Throng To Murray To Hear Candidate.

HAD OLD-FASHIONED DINNER.

Edwards and Franks Speak At Somer-

Murray, Ky., Oct. 28.—[Special]—Accusing the Republican candidate for Governor of attempting to divert attention from his own connection with the Tobacco Trust by false insinuations and charges, Judge S. W. Hager, Democratic candidate for Governor, in his speech here this afternoon emphatically denied the story that the Democratic campaign fund had been augmented by money received from the Tobacco Trust. Judge Hager said Augustus E. Willson was trying to turn back the tide of popular condemnation which threatened to overwhelm him by an absurd and baseless charge. As in other cases, Judge Hager demanded of Mr. Willson that he produce the proof.

The sun shone brightly on Murray to-day and it looked as if half the population of Calloway county was in town. The streets swarmed with farmers and there was no place for them to be housed. The majority were fed in the courthouse yard by the women of one of the local churches at long tables in barbecue fashion. It was County Court day and that always brings a crowd to town, but to-day the number was unusually large on account of the visit of the Democratic candidate, and many combined business with politics and came in for two reasons, to exchange a horse and hear the speech.

Speaks In Small Room.

Murray has no courthouse, the one which used to occupy the middle of the square having burned about a year ago. Temporary quarters are used, and the room in which Circuit Court is held is not large, holding not over 300 persons. On account of a cold which he contracted last night, Judge Hager did not feel speaking out of doors, and the meeting was held in the court room. It was packed full from the stand clear back to the doors, and many could not get inside at all. The stand was profusely decorated with flags, bunting and pictures of Judge Hager and William Jennings Bryan, who recently spoke to 10,000 persons here.

Judge Hager dodged mules' heels, walked under the noses of horses and finally reached the court room, his progress slow on account of having to stop and shake hands with so many men. He found the room already filled, and after being introduced spoke along the lines of his former speeches.

Ollie James Speaks To a Crowd of 2,000 Voters.

OWENTON, Ky., Oct. 28.—[Special]—Ollie James, Congressman from the First district, spoke to 2,000 Owen county voters this afternoon. The court room was too small to hold the crowd that the Congressman spoke from the steps of St. Nicholas' Hotel. Mr. James was at his best and held his audience spellbound for two hours, during which he played the Republican National Administration and the Republican National Administration with biting sarcasm. His speech was one of the strongest ever made in Owen county, and was received with frequent applause. His coming to Owen county has done much to create enthusiasm and will aid materially in getting out the vote next week.

HENDRICK AT BOWLING GREEN.

Large Audience Addressed By Democratic Nominees.

Bowling Green, Ky., Oct. 28.—[Special]—J. K. Hendrick, Democratic candidate for Attorney General, addressed the voters of this county this afternoon at the operations. He arrived here on the morning of the 28th and made a speech by a reception committee and the Bowling Green military band.

The speech was introduced by M. O. Hedges, one of the leading farmers and Democrats in the county. Mr. Hendrick was greeted by a large audience and his remarks were received with much enthusiasm. This is County Court day, and on one of the largest crowds that was ever assembled in the city is here to-day. Reports from different parts of the county indicate that the Democracy of Warren is in good shape and will give the State ticket a large majority.

M'CREARY AT LANCASTER.

Large Audience Packs the Garrard Courthouse.

Lancaster, Ky., Oct. 28.—[Special]—The Hon. James B. McCreary spoke here to a large crowd at the court house this afternoon. He was sent to the train by a delegation of Confederate veterans and as it was county court day, Dem crs' were not on in attendance, but every street of Lancaster, but the town also a large number of visitors from adjoining towns to hear the Senator. Both national and State issues were lucidly explained and the speaker was given three bursts of applause. Jerry Sullivan of Richmond, followed the former Governor in a short speech. He devoted himself exclusively to State politics.

DEFENDS THE ADMINISTRATION

Faynter Speaks To Big Crowd At Flemingsburg.

Flemingsburg, Ky., Oct. 28.—[Special]—In a speech of one hour here at the courthouse this afternoon, Senator Charles A. Wilson, of Louisville, who is in the interest of the Democratic party, and by an agreement between the chairmen of both parties to speak before the election, Judge Holt went to speak that same time in the interest of the Republican party, and by an arrangement that Judge Holt opened after being introduced by Chairman Calvert, of the Republican Committee. Mr. Wilson made an eloquent speech to the voters in the interest of the Democratic ticket and pointed out the success of the present administration.

Joint Debate At Lagrange.

Lagrange, Ky., Oct. 28.—[Special]—Charles A. Wilson, of Louisville, who was billed to speak here this afternoon in the interest of the Democratic party, found that Judge Holt went to speak at the same time in the interest of the Republican party, and by an agreement between the chairmen of both parties to speak before the election, Judge Holt opened after being introduced by Chairman Calvert, of the Republican Committee. Mr. Wilson made an eloquent speech to the voters in the interest of the Democratic ticket and pointed out the success of the present administration.

CONTEST WILL

Relatives Seek To Secure William Gillespie's Estate.

LEFT FORTUNE TO ST. JOSEPH'S INFIRMARY.

TWENTY-FIVE GIRLS WALK OUT AT PADUCAH.

OBJECT TO BEING DOCKED.

Lancaster, Ky., Oct. 28.—[Special]—The will of William J. Gillespie, of Garrard county, presented for probate today, will be contested and the case is set for hearing on November 14. The trial will create great interest here, as the amount involved is estimated at \$80,000 to \$70,000. J. E. Robinson is the chief attorney for the contestants, and associated with him are J. Tevis Cobb, of Richmond, and W. I. Williams, of this place. The lawyers for the legatees are Jerry Sullivan, of Richmond; L. L. Walker and R. H. Tompkins, of Louisville, and P. M. Morris, of Stanford.

Mr. Gillespie was a Protestant, and left his large estate to a Catholic institution. Mr. Gillespie's extreme age, eighty years, and his general infirmities will be the grounds upon which the lawyers will attempt to set aside the will. The relatives who instituted the contest are Judge William Steed, of Morehead, first president of the Daughters of the American Revolution; Mrs. Bertie Robins, of Kansas, first cousin; Anderson Campbell, of Louisville, and others.

The will of Mr. Gillespie has created much comment, and this morning the county court room, corridor and office of the courthouse were crowded when the will was presented for probate.

LOSES ONLY SON.

Infant Child of Mr. and Mrs. John C. Latham Dies.

Hopkinsville, Ky., Oct. 28.—[Special]—While John C. Latham, millionaire banker of New York, was here the morning after his business trip to this city, he lost his only son, John C. Latham, Jr., died at the residence of his parents in New York.

The child was two and one-half years old and had been ill several weeks but not seriously. His condition became suddenly worse and he died Sunday just a few hours before his father reached home. The infant was born at Hopkinsville Wednesday evening, and will be interred the following day in the Latham mausoleum. Mr. Latham and his wife, who was formerly Miss Elsie Gandy, of Louisville, will accompany the body to this city. The child was their only son.

TUESDAY.....OCT. 29, 1907**Business.**Monday Evening, Oct. 28.—The New
York stock market was dull, but fairly
steady. It opened higher and ruled firm
until near the close, when it became
weak. Transactions were in a large
measure for cash.Call money was strong in demand, and
rates ran up to 75 per cent. The ruling
rate was 50 per cent.The money strangle was the over-
shadowing influence in the Chicago grain
market; prices breaking sharply, and the
December wheat option closing 2½¢ net
lower. Corn was down ¾¢. Oats were
the lower.The cotton market opened 3 to 6 points
higher, and soon rallied about 8 points,
but could not resist the adverse influences
of the money situation, developing
weakness and closing 22 to 36 points net
lower.The Chicago cattle market was steady;
the hog market 50 to 100 higher, and the
sheep market weak.We print elsewhere a letter from the
Rev. Charles Ewell Craik, Dean of
Christ Church Cathedral. At no time
and in no way has the Courier-Journal
called Mr. Craik in a "bitter" and "un-
just" assailant of the Clergy, we cour-
teously asked him when, where, and
how, and he comes back with no direct
specification, but an argument by im-
plication, holding us responsible for the
writing of Correspondents for whose
communications we are no more ac-
countable than for this letter of his own,
which we publish as a matter of course.
The Editor of the Courier-Journal has
fought a lifelong battle for the right as
he sees it, often putting his party
standing at issue to be true to his con-
victions of duty, and leading the best
thought of the time both in morals and
in politics, as these columns attest.There ought to be no doubt, and we
trust there will be none, as to the re-
election of Mr. McChord as Railroad
Commissioner. The people without
regard to party distinctions are agreed
upon the exact lines pursued by this
official in his handling of the serious
questions committed to him the last
eight strenuous years. The work has
been full of complications. It involves
not merely high integrity but trained
skill and large knowledge. It would
take a successor, no matter how capa-
ble and upright, an entire term to catch
up with Mr. McChord in experience and
equipment. The very lines affected to
be sought by President Roosevelt have
been the policies pursued by Mr. Mc-
Chord, so that the proposal of Repub-
lican opposition is a species of political
anachronism. Many Republicans depre-
cate it. It would be good Republican
tactics to disavow it. In any event the
public service can not at this time
spare Mr. McChord and afford to lose
him, and hence we take it that he will
be elected by an increased majority.**Louisville Real Estate.**Sharp advances in the rental of busi-
ness property in the retail district of
Louisville are being made as leases ex-
pire. The reasons given are that the
growth of Louisville's retail business and
the improvement of the "downtown"
business section by the construc-
tion of modern buildings has greatly
enhanced the value of real estate, par-
ticularly on Fourth avenue and streets
crossing Fourth avenue north of Chest-
nut street. The congestion of retail
business on Fourth avenue has resulted in a greatly increased demand and rent-
ing value for property on Market, Jeff-
erson and Walnut streets.The expansion and improvement of
Louisville during the last five years has been steady and rapid. A greater
growth and a greater increase in real
estate values will mark the passing of
the next five years. The retail dis-
trict will spread southward at least to
Broadway and business property,
at prices that would have staggered
Louisvilleans a few years ago, will consti-
tute profitable investments to owners and
make good returns to renters. The advance in down-town
property, like the advance in residence
property, especially in the more desir-
able residential sections, merely
keeps pace with the progress of Louis-
ville in commerce and manufactures.
Happily for the future of the city
there has been nothing in the natureof a "boom," and there will be no re-
action.For the investor who will exercise
reasonable discrimination there are ex-
cellent opportunities in the purchase of
Louisville business or residence prop-
erty. Further advances upon well-
located property are as certain as the
rising of the sun. The history of the
city has been that real estate has not
fluctuated, but increased in value. The
history of the next decade will record
activity in real estate hitherto un-
known, and prices will not fail to the
original figure after advances.**The Currency Question.**Senator Elkins thinks the country
needs more currency, and proposes
that there shall be legislation for that
purpose at the coming session of Con-
gress. It is said in Washington City
that there will be a considerable pro-
sure for legislation to provide more
currency.The bankers of the country have de-
clared in favor of credit currency. The
national bank currency at present is
based on the deposit of Government
bonds to an amount equal to the amount
of circulation. It is, therefore, based
on the credit of the Government, supple-
menting that of the banks them-
selves. The main dependence is on the
credit of the Government, and the re-
sult is that the notes of a failed bank
are just as good as those of one that
is prosperous. The declaration in favor
of a credit currency, therefore, means
a currency based upon the credit of
the banks themselves, which, it is pro-
posed, shall supplement the circulation
based on bonds.Representative Fowler, chairman of
the House Committee on Banking, in-
troduced a bill for credit currency in
the House of the last Congress, but it
did not get out of the committee, not
being favored by the Speaker. It pro-
vided that any national bank having a
surplus equal to 20 per cent. of its
capital should have authority to issue
credit notes equal to 40 per cent. of its
bonded circulation, subject to a tax
of 2% per cent. annually. That was
a step in the direction of a more
elastic currency. It was held that
when there was special demand for
currency and rates of interest were
consequently high, the credit currency
might be issued, but the tax on it
would cause it to be withdrawn and it
was left to the army and the Judge-
When the State put on a series of de-
lightful farces called "The Trials of
Harris," for the entertainment of the
good people of Sandy Hook and other
small cities not often visited by theatrical
companies, every possible courtesy
was displayed on both sides. If
Judge Harris did not actually get a
note reading, "Please find enclosed a
check for your late husband." This is
quite true. Throughout the troubles,
or perhaps we should say the gayeties,
in Jackson there has been as much cour-
tesy employed to lubricate the wheels
of life as powder and lead to promote
funerals.Judge Harris is one of the most cour-
teous men who ever paid a stipulated
sum for having had a neighbor mur-
dered. He invited Mr. Marcus to
Jackson in the most cordial terms, and
assured him that he was in no danger.
And when Mr. Marcus came to Jack-
son he was murdered as painlessly and
quietly as possible. When an inquisitive
representative of the Courier-Journal
approached Judge Harris and asked
him to express his views upon that
particular killing, and upon butchery
in general, the genial Boss of Breathitt
said confidently for publication that
Mr. Marcus was thirty-seven varieties of a scoundrel
and richly deserved killing, but
that murder was distinctly dis-
tasteful to him, and that he regretted
sincerely that the murder in question
had occurred.When the militiamen were sent to
Jackson Judge Harris cordially invited
the army to camp in his pasture and it
was fed from his supply store with
profit alike to the army and the Judge.

ment on this question is not exactly
known, but Mr. Treat has been auth-
orized by Secretary Corletroy to ex-
plain his plan to bankers' associations.**This scheme is that any national bank
with not less than half its capital
invested in United States bonds shall be
allowed to take out emergency cur-
rency not exceeding 50 per cent. of its
surplus. The notes shall be on five, six
and nine months, and shall be secured
by United States, State or municipal
bonds, to be accepted at 70 per cent.
of their face value. They shall be
guaranteed by the United States at a
charge of 1 per cent. In this way the
banks shall be allowed to issue notes
to the full amount of their capital.
There are now 6,647 national banks,
with a total capital of \$908,119,675, and a
circulation of \$657,071,909. There is,
therefore, a margin of over \$300,000,000
between their circulation and their
total capital, which would be ample, if
it is argued, for an emergency circula-
tion.**Dr. Butler and the Credit System.**Dr. Nicholas Murray Butler, in his
address before the National Civic Fed-
eration, as heretofore practiced, the currency
has been absolutely safe, so far as its
payment in legal tenders is concerned.
But there has been much complaint
that the currency is not elastic; that
is, that the amount of it does not ex-
pand or contract according to the
needs of business, which are much
greater at some times of the year than
at others. The desirability of having
such a currency is pretty generally
admitted, but it is equally or more des-
irable that this currency should be
absolutely safe. A majority of the
banks wish permission to issue credit
currency when it is badly needed, and
they must be supposed to believe that
such currency would be safe. Never-
theless, there may be some bias which
contributes to this belief. Of course, if
the Government guaranteed this cur-
rency, as suggested by Mr. Treat, it
would be safe; but would the Govern-
ment be safe in giving such a guar-
antee? Opinions differ on these questions
so much that no plan for credit or
emergency currency has heretofore
been adopted.**Weights and Measures in China.**It is said that the Chinese Government
has ordered the Board of Revenue and Commerce to
establish within six months a uniform
system of weights and measures throughout
the Empire.This is an important measure
which will have a great influence on
the progress of the country.The Chinese Inter Ocean consols its
local readers with the statement that
beauty has no real cash value, any-
way.especially true as to currency, which
weighs by weight. The Haikwan tail has
recently been the standard in Govern-
ment transactions, but there is a great
variety of other tails, so that almost
every province has a different one, and
much confusion results in international
transactions.To introduce uniformity in weights
and measures throughout so great an
empire is a huge undertaking, and it
may be doubted whether it can be
accomplished in six months. At all
events, it seems probable that there
will soon be an improvement in the
conditions.**Politeness in Jackson.**The Atlanta Constitution observes
that the Kentucky feudist is at least
courteous as it is customary for the
visitor to send the widow of the victim
a note reading, "Please find enclosed a
check for your late husband." This is
quite true. Throughout the troubles,

are sound—just as sound now as they
were two years ago. If so, the shrink-
age must be due to the public feeling
toward the stocks. The state of mind
of the people is the factor that has
counted. If that state of mind were
buoyant, optimistic and confident the
trend would not have been downward,
but upward. The steps taken to cure
the industrial and financial evils ap-
parently have been such as to develop
in the people this state of mind. Dr.
Butler seems to think that the struc-
ture of our credit system has been en-
dangered. He urges caution before the
harm is irreparable.Whether the critical conditions which
have prevailed in New York and else-
where this year are really organized
as a whole as we will, we think, dis-
cern from the views expressed in such
ringing terms by President Roosevelt in
his speech at Nashville. Business men
who are engaged in legitimate enterprises
and conducting them in a legitimate man-
ner will agree with him that the as-
pects of the business world are not
so bad as he makes them out to be.
He believes that the policies behind the
existing troubles are not founded upon fact,
but upon the light shows. And the great
mass of the American people, we believe,
will further agree with him that the
buccaneering cannot be checked and
punished without some commercial and
industrial disaster rather than allow ethi-
cal and dishonesty to continue. For, after
all, it is choice of two evils. We
can either have a setback now and have

Floyd Circuit Court Receives
Suit For Damages.

MRS. ROSALIE JAMES SOON SUC-

THREE MORE NEW ALBANY SA-
LOONKEEPERS COMPLAINED OF.

NICHOLSON LAW VIOLATED.

The case of William Strohmeier against William H. Smith, transferred from the Harrison Circuit Court at Corydon, on a change of venue, was on trial before a jury in the Circuit Court at New Albany, and the case will occupy the greater part of to-day. The suit is to recover \$5,000 as damages on account of alleged injuries sustained by Strohmeier, the plaintiff, in a fight with the defendant, Plaintiff, that a year ago the men clashed at New Market, Ind., and Strohmeier was badly injured. He brought suit to recover damages. The beaten man instituted the action, and it was transferred to Floyd county. The trouble originated over a dispute arising from a business transaction.

LORY MAY GO FREE.

Former New Albany Resident Upheld
By Higher Courts.

Frank C. Lory, a former resident of New Albany, and son of Frank of West Eighth and Market streets, in this city, stands a flattering chance of being exonerated of a charge of having defrauded Illinois farmers and business men out of several thousand dollars, which they had invested with him in worthless Alaska mining stock. Lory has made large sales of the stock to residents of Danville and Vermillion county, Ill., and when these failed to pay him his customers, he induced them to withdraw the curtains at the front windows of their saloons and for permitting gamblers to remain in their saloons during the prohibited hours. They answered in that tribunal this morning, and it is probable that none of them will be tried for the offense of having sold to minors. Lory, however, has been indicted, but his attorneys took an appeal to the Supreme Court, which reversed the decision of the lower court. It is now believed that the persons at the head of the prosecution proceedings will abandon them, and Lory will go free.

**J. PEGGY SCOTT RESIGNS AS AL-
DERMAN.**

MEETING OF TRAINED NURSES.

Lexington, Ky., Oct. 28.—[Special]—President Patterson, of Kentucky State College, has placed the students on their honor to indulge in no disorder on Halloween, and confidently expects that the time-honored occasion for schoolboy pranks will be the quietest ever known at that institution. Last year the students, after capturing a policeman stationed to protect Patterson Hall, the girls' dormitory, wrecked a street car and had a pitched battle with the police, in which Police Capt. Ford was seriously injured by a blow from a stone, and a wagon load of the students were hauled to the police-station. The students claimed it was an excuse for the students' conduct, which was probably caused by the police stations about the grounds, which the college boys considered a bant to do their worst. This morning President Patterson called into his office the president of the four college classes and informed them that this year no policeman would be stationed about the college grounds or the girls' dormitory, and not even a night watchman would be on duty at Halloween, as he would rely on the students themselves to uphold the honor of the college by seeing that no disorder occurred. The arrival of the students will be given with a hearty response, and the senior class, especially, has appealed to their fellow students to merit the confidence of the president.

Scott Resigns.

J. Percy Scott, who for nearly two years has been chairman of the Joint Ways and Means Committee of the General Council, to-day tendered his resignation as a member of the Board of Aldermen to Mayor Combs, in protest against his re-election. It is Mr. Scott's view that the Republican ticket for Councilman and cannot consistently hold the position of Alderman, in which he was appointed by a Democratic Mayor. Mr. Scott, although a Republican, was appointed Alderman by Mayor Combs in January, 1906, to fill the vacancy made by the resignation of C. N. Manning. In the next election, Mr. Frank D. Danner was elected to succeed Mr. Manning, but failed to qualify, and Mr. Scott was again appointed to fill the position.

Graduate Nurses' Meeting.

The first annual meeting of the Kentucky Association of Graduate Nurses will be held at the Phoenix Hotel, beginning Tuesday, October 29, and continuing three days. Tuesday evening there will be a reception at the Good Samaritan Hospital, and Wednesday will be devoted to a business session and to the reading of papers on the best methods of caring for the sick. At Thursday's session the hour for a medical recognition of graduate nurses, which will be presented to the Legislature this winter, will be discussed. This bill is really designed for the protection of the sick from ignorant and incompetent persons, and will provide for a prescribed term before the individual can represent herself as a trained nurse. Many interesting papers will be read at the meeting.

Civil Docket Called.

The docket for the civil term of the Circuit Court was called to-day, the jury selected, and November 6 fixed as the date on which trials will begin.

Raymond Hitchcock Placed Under \$3,000 Bail For Alleged Criminal Assault.

New York, Oct. 28.—Raymond Hitchcock, the actor, who is starring in a musical production on Broadway, was arrested to-day on a charge of criminal assault. The arrest was made following a visit by Assistant District Attorney Gammie's side of two young girls, who were close to him for more than two hours.

Mr. Hitchcock refused to make any statement concerning the charge against him. He finally caused the arrest on a charge of blackmail of the brother of one of the girls who made the charge against him to-day. He sent the man demanded \$3,500 to prevent the publication of a certain story in the newspaper.

Hitchcock was held in \$3,000 bail for hearing before a magistrate Thursday. Bail was furnished.

PEOPLES LEAVING THIS DAY.

Indiana, Capt. Charles Howard, Cincinnati, at 5 p.m.; Helen Gould, Capt. M. McIntyre, for Carrollton, at 4 p.m.; Capt. Howard, for Evansville, at 4 p.m. ARRIVALS AND DEPARTURES YES-

TERDAY.

The Hlawata passed up yesterday from New Albany to go to the marine ways at Madison. She is to be laid up until the Mitchell and is in the excursion trade around the falls... The Glenmore is laid up at 4 p.m. for Carrollton, and is to be out one week before she resumes her trips in the Louisville and Evansville trade... The Impala is to be laid up at Carrollton, and the racing boats in November. Rivermen of Pittsburgh are taking steps to secure an amendment to the laws and regulations requiring owners of log rafts to carry a licensed master, so as to apply to a fleet of twenty-five tons or over... The Glenmore is to be laid up at Carrollton, and the Mabel Coomeaux painted inside and out at New Orleans... Memphis, Vicksburg and Natchez are to be laid up for the winter because of the excessive demands of "towers." It is said that the waves damaged some of the towers and made it impossible for owners of boats to make a living... E. Murphy has purchased the steamer City of Hartford from Capt. H. A. Hartman, and is to be laid up at Carrollton, Bayou Lafourche and Terrebonne trade... The towboat Jim Wood, on route from the Mississippi to the Ohio, was torn in tow going to Cairo the day before, and Wash Houshell, a barge of lumber, a dar-

rkboat and several empty barges. The Houshell was left at Cairo to be repaired.

The bridge at Oak Hill cemetery, in Evansville... The gasoline launch Falma, owned by Capt. E. C. Drysdal, is to be laid up en route with a party bound for New Orleans. The Falma is a model after the Columbia, a boat destroyer and is sixty feet, six inches long by ten feet wide and draws four feet of water. Her engine is a 100-horse power motor which will accommodate seven persons. The Falma is equipped with a four-upright cylinder motor engine, to be used when the Falma travels up stream. A crowd went to Madison yesterday on the city of the Falma, and there will be a great time there... It may be another month before the City of the Falma is sold, and the Falma will be laid up in the meantime.

Capt. Ed. J. Howard, owner of the Falma, is looking for a successor to the late Capt. Stuart... Robert Fulton, inventor of the steamboat, is here by reason of the scarcity of early United States pennies, particularly those of 1792 and 1804, says he. He has withdrawn a large number of them from circulation to construct the boiler of his steamboat, the Columbia, and those he has withdrawn are quite scarce article.

Philip Grauman's executrix to St. Paul, Minn., has sold the Falma.

Reasons given for the sale are that it was dangerous to keep, and that it cost a great deal to maintain it.

RIVER TELEGRAMS.

Pittsburg, Oct. 28.—[Special]—Preparations were made to-night to ship coal to the Ohio river. The forecast does not indicate more than enough water in the upper Ohio river to ship light barges. Some coal is being loaded on flat cars and shipped to the Ohio river by rail.

The reports to-night from upriver did not indicate a rise to a barges

height of 12 feet.

Wheeling, Oct. 28.—River 4 feet, falling.

Point Pleasant, Oct. 28.—River 31, falling.

SELF-PROTECTION

Reason For Decision To
Issue Loan Certificates.

YESTERDAY'S ACTION OF LOCAL
CLEARING-HOUSE ASSOCIATION.

LOUISVILLE BANKS IN AN UN-
USUALLY STRONG CONDITION.

PROPOSED TO KEEP THEM SO.

Loan certificates will be issued by the Louisville Clearing-house Association to its members in order to protect the residents of Louisville and prevent our cities which have issued loan certificates already, from draining the resources of the Louisville banks. This action, which bankers say was made necessary by the similar course taken by all the principal cities of the country, was decided on at a meeting of the members of the association yesterday morning. These certificates are to be used among the banks themselves, the daily debt balances being paid with them.

The meeting yesterday morning was called for the purpose of discussing the banking situation. It was brought out in the discussion that the clearing-houses of associations of New York, Philadelphia, Chicago, Indianapolis, Pittsburgh, Baltimore, Minneapolis, St. Paul, Kansas City and Denver were using loan certificates. The idea of this action was that each association would be a drain on the cash resources of the Louisville banks unless some arrangement could be made with the Louisville Clearing-house Association. This was shown by one of the members by the fact that Louisville had been asked to make a request of the clearing-houses to points which obviously had depended upon one of the other cities which are now issuing certificates.

To Meet Present Situation.

These facts were brought out strongly in the discussion. In view of the fact that the Committee of Seven and the Louisville Clearing-house Association determined that it would be merely exercising prudence in the protection of the citizens of Louisville to adopt some measures similar to those in the cities named above. According to it, it was necessary to call a meeting of the clearing-houses to each of its members. These certificates are to be received for loan purposes at the clearing-houses and to be used there. Within a short period of time, the committee found yesterday morning that no banks in Louisville are in an unusually strong condition.

There was a further recommendation to the effect that all the clearing-houses of the nation having loan certificates or other accounts payable on them should require sixty days' notice of withdrawal. The action was unanimous and the recommendation adopted by the savings banks and trust companies not in the clearing-house association.

"This action," said Logan C. Murray, president of the clearing-house association, "was taken just in order to keep the currency in our banks. Louisville banks at present are in a much better position than they were when we took such measures as we adopted this morning as a matter of prudence, other banks would send us requests for resources and in this manner drain out our resources."

**FIRE IN STABLES CAUSED
GENERAL APPREHENSION.**

Overhill-Street School Dismissed
When Flames Threatened It—Five
Buildings Burned.

Five stables and sheds in the rear of residences on Overhill streets, between Broadway and Fetter street, were destroyed by fire shortly after 10 o'clock yesterday morning. The fire, which was of unknown origin, broke out in the barn of John H. Baileys, who has resided on 12th Overhill street, and spread rapidly to the four other buildings. A family horse belonging to Mr. Baileys was barely burned before it was extinguished.

For a time a northward wind the fire spread rapidly and at its height threatened the Overhill-street school, situated on 11th Overhill street. But the flames would be communicated to the building Mrs. Augusta Salomon, principal, who, with her pupils, left the school, fearing for the safety of their children. A fireman, Nick Kipp, of engine house No. II, sustained painful injuries to his right arm when struck by a fire plug.

**ONE SALOONKEEPER FINED.
OTHER CASES CONTINUED.**

The cases against Stephen Muth, of 183 West Market street, and Gus Kammerer, both of whom were charged with carrying and Duncan streets, both alleged to have been in their respective saloons last Sunday, were continued in the Police Court yesterday. Muth, who was charged with these two men were ten others, said to have been in the places at the time of the arrest. The trial of the others, a disorderly conduct charge, was adjourned to Goss and Texas avenues, charged with keeping his saloon open October 28, was due to the fact that he did not take the stand to testify in his own behalf.
